### **SUPPLEMENTARY INFORMATION:**

**I. Abstract:** Based on user feedback provided during the initial release of the NASA STEM Gateway (Universal Registration and Data Management System), NASA plans to develop updates/enhancements to improve information collected and the overall user experience in the NASA STEM Gateway. The NASA STEM Gateway (Universal Registration and Data Management System) is a comprehensive tool designed to allow learners (i.e., students, educators, and awardee principal investigators) to apply to NASA STEM engagement

opportunities (e.g., internships, fellowships, challenges, educator professional development, experiential learning activities, etc.) in a single location. NASA personnel manage the selection of applicants and implementation of engagement opportunities within the NASA STEM Gateway. The information collected will be used by the NASA Office of STEM Engagement (OSTEM) and other NASA offices to review applications for participation in NASA STEM engagement opportunities. The information is reviewed by OSTEM project and activity managers, as well as NASA mentors who would be hosting students. This information collection will consist of student-level data such as demographic information submitted as part of the application. In addition to supporting student selection, student-level data will enable NASA OSTEM to fulfill federally mandated reporting on its STEM engagement activities and report relevant demographic information as needed for Agency performance goals and success criteria (annual performance indicators).
